A A A A

A A A A

A A A A

A 10x10 heatmap visualization. The diagonal elements, from top-left to bottom-right, are highlighted in yellow and labeled with red 'A's. The off-diagonal elements are colored in shades of blue, indicating lower values. The labels 'A' are positioned at the top-right of each diagonal cell.

A 4x4 heatmap with a color scale from 0.0 (white) to 1.0 (dark red). A 2x2 block of cells in the bottom-left quadrant is colored dark red and labeled 'A' in red text.
